

Along with creating beautifully handcrafted bespoke kitchens, we offer a carefully curated portfolio of contemporary fine furniture. Each piece is custom-made to bespoke requirements in our north London factory and reflects our dedication to the art of fine cabinetmaking and craftsmanship in furniture design.

We believe in making furniture pieces that will endure, to outlast momentary trends by virtue of being meticulously designed and exceptionally well-crafted. In tandem with our penchant for simple, timeless design, we are constantly seeking out novel man-made surfaces and value the qualities of tactility, texture and resilience above all. Thus alongside hand-selected timbers and veneers, exquisite metal finishes and the finest natural stone, we also offer a specially chosen palette of innovative modern materials so that each furniture piece can be fully customised in a combination of finishes to perfectly suit your individual needs.

- 01 JT Curved Dining Table

- 11 JT Floating Sideboard
- 13 JT Wedge Splashback
- 
- 15 Materials & Finishes
- 16 Shipping & Warranty

The JT Curved Dining Table was originally created to complement a client's suite of CH24 Wishbone chairs by the renowned Danish furniture designer Hans J. Wegner.

In designing the JT Curved Dining Table, we were inspired by the graceful and distinctive arc of the Wishbone chair's armrest which we have emulated in the table's rounded contours and subtly curved and tapering leg. It is a furniture piece of exceptional craftsmanship that has been thoughtfully designed with a particular emphasis on the precise, structural detailing of the table frame so as to fully express the natural beauty and characteristic graining of the solid timber.

Handcrafted in our workshops using traditional joinery methods, the JT Curved Dining Table is a bespoke furniture piece that can be fully customised in a variety of solid timbers and table-top finishes to perfectly suit your space and requirements.

#### Suggested Standard Dimensions\*:

6 – seater	1800 (w) x 900 (d) x 740 (h)
8 – seater	2100 (w) x 1200 (d) x 740 (h)
10 – seater	2800 (w) x 1200 (d) x 740 (h)

\*As a made-to-measure furniture piece, the overall dimensions can be customised to accommodate specific requirements

#### Timber Frame Options:

-  European Oak
-  American Black Walnut

-  Veneered (Oak or Walnut)
-  Natural Stone
-  Quartz Stone

**Cost from | £8,750 + VAT**

Estimated lead time | 16 weeks

Cost excludes delivery & installation

Polished and buffed a mirror shine, the JT Gloss Coffee Table has been designed to be invisibly jointed while the specialist high-gloss polyester lacquer finish imparts a touch of understated luxury.

The JT Gloss Coffee Table is available in three standard sizes but as a bespoke furniture piece, we can also vary the overall dimensions to suit individual requirements. You may choose from any recognised RAL colour however, if you are looking to match to a specific paint colour (such as Farrow & Ball or Little Green Paint Co.), then do get in touch with our team and we will be happy to advise.

Polyester lacquer produces a seamless high gloss surface and pristine finish. Compared with other types of applied lacquer, polyester is by far the most robust and it requires a highly labour-intensive process to achieve the ultra-smooth gloss finish.

#### Suggested Standard Dimensions\*:

Square	750 (w) x 750 (d) x 500 (h)
Medium	1200 (w) x 600 (d) x 400 (h)
Large	1500 (w) x 750 (d) x 500 (h)

\*As a made-to-measure furniture piece, the overall dimensions can be customised to accommodate specific requirements

#### Lacquer Colour Options:

High Gloss White

Any Recognised RAL Colour

**Cost from | £3,500 + VAT**

Estimated lead time | 16 weeks

Cost excludes delivery & installation

An elegantly-proportioned bedside table, our JT Nightstand is equally at home in a modern or traditional setting. It is handcrafted from specially selected timber and fine wood veneers and features custom-fabricated fittings in solid polished brass. The single drawer runs on traditional hardwood glides while the finger-pull aperture is lined with a solid brass fitting that will develop a beautiful patina over time and handling.

As a bespoke furniture piece, the overall dimensions of the JT Nightstand can be varied to accommodate specific requirements whilst keeping to the spirit of the original design.

The JT Nightstand is priced for a pair as standard. Please let us know if you are interested in a single table and we will be happy to quote accordingly.

#### Suggested Standard Dimensions\*:

500 (w) x 350 (d) x 650 (h)

\*As a made-to-measure furniture piece, the overall dimensions can be customised to accommodate specific requirements

With its simplicity and clean lines, the JT Writing Desk adheres to the Jack Trench ethos of fusing contemporary design with exceptional craftsmanship. The elegant table frame is crafted from high grade solid timber with gracefully tapering legs while the table-top is offered in solid copper and brass, Corian or Richlite.

As a bespoke furniture piece, the overall dimensions of the JT Writing Desk can be customised to suit specific requirements while the wood frame and table-top options allow for myriad combinations to suit your interior scheme.

Handcrafted in the finest solid timber with specially fabricated brass fittings, our handsomely detailed JT Library Ladder has been designed to live in the home as a practical piece of furniture for everyday use. We offer the ladder in two standard sizes (a tall ladder and a stepladder), and it comes with wall-mounting pegs so that the ladder can be neatly stowed away when not in use.

An alternative brass bracket system is available for mounting the JT Library Ladder onto a door for which we can provide a price on request. Please note that the JT Library Ladder is intended for light domestic use only and is not suitable for trade or commercial applications.

#### Standard Dimensions:

Tall ladder	1700mm (h) to top rail when open 1065mm (h) to top step when open 1800mm (h) to top when closed from floor
Step ladder	1280mm (h) to top rail when open 650mm (h) to top step when open 1350mm (h) to top when closed from floor

#### Timber Options:

With its wall-mounted cantilevered design, the JT Floating Sideboard hovers pleasingly above the floor to create a sense of roominess, particularly useful for hallways or where space may be at a premium. The sliding doors feature a discreet circular finger-pull and the interior comes with adjustable shelving, offering flexible storage as required.

Though the JT Floating Sideboard is available in three standard sizes, as a bespoke furniture piece we can vary the overall dimensions to suit specific requirements while the wood frame and door material options allow for myriad combinations to suit your interior scheme.

Please note that the wall-mounted cantilevered design requires specialist installation. This can be undertaken by our JT Installation team or, alternatively you may wish to appoint your own qualified tradesperson.

#### Suggested Standard Dimensions\*:

2 – bay	1200 (w) x 500 (d) x 600 (h)
3 – bay	1800 (w) x 500 (d) x 600 (h)

Estimated lead time | 16 weeks

Cost excludes delivery & installation

The JT Wedge is our modern interpretation of traditional kitchen splashback. Though seemingly carved from a single block of marble it is in fact constructed of ultra-thin lightweight stone, the result of a technically advanced and patented fabrication process. It is a deceptively simple furniture piece that transforms our perception of the purely functional splashback into a tangible object of beauty that looked after with care, will last a lifetime.

Designed to have a functional purpose as well as being a monolithic and sculptural object in its own right, the JT Wedge incorporates an inset ledge for the storage of kitchen worktop essentials, and can be made to bespoke dimensions in any type of marble, composite stone or Corian.

Suggested Standard Dimensions\*:

2000 (w) x 300 (d) x 500 (h)

\*As a made-to-measure furniture piece, the overall dimensions can be customised to accommodate specific requirements

Material Options:

Glacier White Corian

Natural Marble

Quartz Stone

Cost excludes packaging, delivery & installation

### Selected Richlite Colours

Richlite is an incredibly durable material made from paper. Developed over 70 years ago for industrial tooling, the innovative surface material's mottled appearance, honed look, leathery feel and warmth complement a range of interior applications.

### Selected Corian Colours

Corian® is a solid, non-porous material made up of one third acrylic resin and two thirds natural minerals. Corian® is a remarkably durable material that is easy to live with, standing up well to daily use, especially in a kitchen environment with heavy traffic areas.

### Selected Fenix NTM Colours

FENIX is a nano-technological material which has revolutionized the world of interior design. It is not only beautiful to look at, but it's anti-fingerprint, soft to the touch, opaque and extremely durable, so much so that it can withstand knocks and scratches.

### Selected Natural Marbles

The different arrays of colours which are found in marble are created by the various mineral impurities found within it which include clay, silt and sand. Its specific colours and textural variations make for highly decorative and exceptionally beautiful pieces of furniture.

### Selected Fabricated Stones

Fabricated stones such as Silestone & Terrazzo are incredibly hard and resilient making them excellent surfaces for kitchen worktops & dining table tops. Silestone has exclusive properties that contribute to safety, confidence and hygiene to a space where people spend more time.

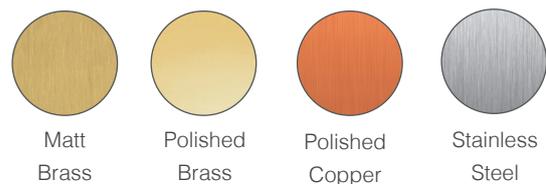

### Selected Wood Veneers & Timbers

We use specially sourced wood veneers and solid timbers to create exceptionally detailed bespoke pieces that marry fine craftsmanship and traditional joinery techniques.

### Selected Metal Finishes

We use a range of metal finishes on a bespoke furniture range, each have different properties and will behave slightly differently over time. Whether your piece requires a solid metal tabletop, or perhaps its clad in sheet metal, enquire with us about the properties of each option.

*Please note that the colours & finishes shown on this page are just suggested and some of our favourites. Other colours are available on each suppliers website. Please enquire with us for more information.*

### Delivery Options:

Any required delivery and installation costs, either domestic or international, will be quoted at the time of invoice. Please advise final postcodes and any access considerations at the point of ordering. We offer the following options for the shipping of your finished goods:

Kerbside Delivery | Your crated and carefully packaged goods will be shipped directly to the required destination for kerbside delivery only. It will be your responsibility to take receipt of the goods to unpackage and install as well as dispose of the crate and packaging materials afterwards.

White-Glove Delivery & Installation | A complete white-glove installation service by our trusted external shipping partner. Your crated goods will be shipped to the required destination, unpacked and positioned by the team with all crating and packaging materials taken away afterwards. The team will also ensure that floors and walls are fully protected during the installation process.

JT Delivery & Installation | A complete white-glove service undertaken by our in-house fitting team. Your crated goods will be shipped to the required destination, unpacked and installed by our team with all crating and packaging materials taken away afterwards. We offer this service to clients requiring delivery to a London address. Other UK destinations will be considered at our discretion.

### UK | Warranty:

We always do our utmost to ensure that finished goods arrive at their destination in perfect condition. In the unlikely event that your furniture item is found to be defective, we provide a manufacturer's warranty for a period of 12 months from date of the finished goods being shipped from our workshop. We shall repair the affected part or parts either on site or on being returned to our workshops, at our discretion.

### International | Return to Base Warranty:

For clients not based in the United Kingdom, we provide a manufacturer's return-to-base repair warranty for a period of 12 months from date of the finished goods being shipped from our workshop. Under our international return-to-base repair warranty, all carriage and freight costs (for both return to base and subsequent collection and re-shipping) shall be borne by the client.

Our manufacturer's warranty does not apply to any defects in the goods arising from heavy handling, misuse, abnormal storage or working conditions, accident, negligence, climactic differences or, which is the result of any alteration or repair. Any alterations or repairs undertaken to the goods will also invalidate the manufacturer's warranty.
